decibel levels published in the FAA's FEIS for Lambert-St. Louis International Airport, Table Q-1, page Q-2, column "2002, W-1W".

3. Noise monitors shall be erected at the locations designated "C01" through "C12" in Table Q-1 and whose location is identified in Figure Q-1 of the FEIS. These monitors shall be fully operational coinciding with the beginning of aircraft operations on W-1W and shall be identical to permanent noise monitors used at other locations around Lambert Airport. If actual noise decibel levels as measured by those monitors exceed the levels identified in Table Q-1, then Lambert-St. Louis International Airport shall have one year to come into compliance with the FEIS.

4. If noise decibel levels are not reduced to levels at or below those listed in Table Q-1 one year after the initial violation was identified, Lambert-St. Louis International Airport shall be fined the amount of twenty-five thousand dollars for each noise monitoring location as set forth in subsection 3 of this section that exceeds the noise decibel level listed in Table Q-1 for that location. Measurements shall be made on a yearly basis and compared to the Table Q-1 levels for determinations of violations. The Aviation Noise Regulation Committee (ANRC) shall have the responsibility of monitoring the noise levels and compliance with the FEIS and distributing any fines as set forth in this section and section 305.590.
